Memorial Auditorium

Charlotte Payne PhD

Senior Editor and Team Leader (Magazine),
Nature Human Behaviour

Nature Human Behaviour publishes primary research of outstanding significance into any aspect of individual or collective human behaviour. We cover a broad range of social, biological, health and physical science disciplines. We also publish opinion pieces in our magazine section, where we aim to platform a diverse range of voices and make a positive impact in our community of readers. In this talk, I' ll introduce the aims and scope of the journal, and I' ll explain the process of submission and peer review with us, for both primary research articles and opinion pieces.
