

# 第5回研究交流サロン ポスター賞受賞者

## / Poster award winners in the 5th Research Networking Salon

1.Presenter 2.Position 3.Affiliation 4.Title

1. Yuki Yamato
2. Master
3. Med
4. Morphogenesis of the ankle and foot during human late embryonic and fetal periods

1. Tatsuki Tsuruoka
2. PhD
3. Biostu
4. Optogenetic control of p53 signaling pathway

1. Takahiro Iwai
2. PhD
3. Med
4. A pilot study of chemoradiotherapy with cone-beam CT-guided online adaptive radiotherapy for pancreatic cancer

1. Takumi Kishimoto
2. PhD
3. Med, CiRA, DoGS
4. Molecular analysis of epigenetic dysregulation in Facioscapulohumeral muscular dystrophy

1. Daisuke Yamasaki
2. Pharm
3. PhD
4. Control of liquid-liquid phase separation of TDP-43 by cytosolic delivery of antibodies

1.Presenter 2.Position 3.Affiliation 4.Title

1. Youngna Kang
2. Other
3. Med
4. Matrix-Mediated Tissue Homeostasis in the Kidney Outer Medulla

1. Marie Takeuchi
2. PhD
3. Med
4. EDNRB2 regulates migration and maturation of hair cell precursors in regenerating avian auditory epithelium explants

1. Akinori Murakami
2. Assistant prof./lecturer/associate prof.
3. Med
4. Single-cell RNA sequencing of synovial CD4+ T cells identifies IGFL2 as a novel biomarker and therapeutic target in human rheumatoid arthritis

1. Kota Shimizume
2. Master
3. Pharm,MIP
4. TRPV4-induced membrane remodeling suppresses GPCR signaling

1. Momoka Hikosaka
2. Phd
3. Med
4. Cerebellar learning disability and plasticity impairments, caused by prenatal and peripubertal 2HIT stress via microglia.

<Abbreviation>

2.Position Master: Student in master program, PhD: Student in Ph.D. Program

3.Affiliation Med:Graduate school of Medicine, Pharm: Graduate School of Pharmaceutical Sciences, Biostu: Graduate School of Biostudies, CiRA: Centre for iPS Cell Research, MIP: Graduate School Program for Medical Innovation, DoGS: Division of Graduate Studies
