

## 第4回研究交流サロン オーラル発表者

### /The 4th Research Networking Salon Oral Presenters

1.Presenter 2.Position 3.Affiliation 4.Title

1. Masayuki Sakamoto
2. non-PI
3. Biostudies
4. A multicolor suite for deciphering population coding of calcium and cAMP in vivo

1. Yoko Nishinaka-Arai
2. non-PI
3. Med
4. Evaluation of the pharmacological activity of a novel synthetic antioxidant for drug development of oxidative stress disease

1. Chihiro Goya
2. undergrad
3. Med
4. Post-transcriptional control of proinflammatory cytokine expression via the regulation of mRNA subcellular localization

1. Miu Tanaka
2. undergrad
3. Med
4. Brain networks underlying "karuta-fuda" cognition in karuta experts

1. Shohei Tsuchihashi
2. Phd
3. Pharm
4. Development of novel radiotheranostic agents with albumin binder for cancer treatment

1. Misa Minegishi
2. non-PI
3. LiMe
4. Tools for dissecting interactions between cancer cells and their surrounding microenvironment

1. Masahiro Mitsuhashi
2. non-PI
3. Med
4. Stage-dependent role of interhemispheric pathway for motor recovery in primates

1. Gen Yamada
2. Phd
3. Med
4. Effectiveness of Remdesivir in Patients with COVID-19 and Severe Renal Insufficiency: A Nationwide Cohort Study in Japan

1. Masahiro Takahashi
2. non-PI
3. Med
4. ATP imaging by two-photon microscopy in elucidation of acute kidney injury

1. Mio Iwasaki
2. PI
3. CiRA
4. Multi-omics approach reveals post-transcriptionally regulated genes are essential for human pluripotent stem cells
